Dear [redacted],

This is to confirm our last conversation on August 29th inst. at Governor Clinton's Hotel in New York city.

I take the liberty to express my personal opinion to the subject which we have discussed together. There is no doubt that to Save proceed men in name of Freedom is absolutely necessary, it also holy duty to every Caucasian to help as much as could be possible to take of destruction action against Soviet regime, who already exterminated many thousand innocent caucassians, also they are at present under very harsh treatment and there crimes are only there love for freedom.

As far as I can think and study of my compatriots here in USA or in any country outside of the Soviet Russia, most of them were simple Kolhoz worker and a certain number of young men who were attending Soviet schools, and they were deprived of there

rights in completing these Studies as World War II has broken, which unfortunately makes most of our men irresponsable (man with a little knowledge is danger as wise men say it). In many occasions I noticed among our men that there is no secrets. In fact I do not afraid of our men as I do think that something said by one of them which should keeped in Secret may reach ears of our enemies who may take counter actions if not right but in Caucasus. Also there is a small number of well educated ones among Caucasians specially in Germany or in Turky.

Therefore regardless these backgrounds in my opinion it will be the best if this will be worked out as followings:

1. To select very carefully every man who has to be considered for future training.

2. To be very careful with ex P.O.W. in Germany although most of them fought with germany against Russian troops. (IT is KNOWN HOW MANY OF THEM WERE FORCED TO VALENTER DURING WAR AND IT ALSO KNOWN THAT MANY OF THEM ARE THINKING EVEN TO-DAY THAT IF IN CASE THEY FALL IN HAND OF SOVIET RUSSIANS THEY COULD FINED EXCUSES).

3. The way of approch to the candidates prefers as I told you during our conversation in N.Y.C. Why this is necessary I believe it may cover well enough situation, for example let us say that name was said to somebody that he was asked

by Authorities that authorities are interesting in him for use after Caucasus will be freed from Communist Regime as he is very important person in his native land etc. if this words will reach ears of Soviet agents I think they should laugh only on this point as they should learn that among them are nobody whose help necessary for your Government after liberation.

4. Very advisable to train them separately if this is allowable by your set up situation so as one will not be able to know others this point will help in two directions: 1. you can learn from X if Mr. Y talks about things which should be keeped and 2. If in case one refuses to do some thing which may be proposed he would not know others.

5. During your conversations with them you have to let him feel that seperately that you can trust him only and he is only dependable person and his cooperation is vitaly important, this is necessary as nearly everyone of us feels that without him bird will not flow so why you should not say things which agreeable as long as you do not loose anything.

6. You should never mentioned at the begining that you are going to use them for any agent work as probably they never heared that man dies doing things in name of his country

so be sure also that they do not believe that man can do such things unless he is a Angel. If in part it is present such men were available in Europe, they were agreeing only from material point of view. Of course there are men who are ready to sacrifice themself for their country but how many of them?

If you will take into consideration above mentioned points, and men will be ready for use in future date, the way of time convincing many will depend how they should feel, anyhow I believe it is little early than necessary so there is no necessity to talke about it now, when time comes we shall faced right way and right by everyone of them.

Allow me to tell you that as far as it may concern me, I am always ready to help you as much as I can, be sure of that always please.

Sincerely Yours
Bohumil Dodek

P.S.
Please conform receipt of this letter,
And also forgive me for my
English.

TO.
